

*An industry-leading AI-driven
cloud security platform*

Paid Media Case Study • 12 Months

The background features a dark blue field with a central radar-like graphic consisting of concentric circles and radial lines. To the left, there are two cloud icons, one above the other, with a small square containing a white exclamation mark between them. Below the radar, there are several blue rectangular boxes with white text and icons, including a triangle with an exclamation mark and a shield with a checkmark.

ABOUT ORCA SECURITY

Orca Security is an industry-leading ai-driven cloud security platform that identifies, prioritizes and remediates security risks and compliance issues across cloud platforms such as AWS, Microsoft Azure, Google Cloud, Alibaba Cloud and Kubernetes. They are the global winners of the 2022 AWS Security Partner of the Year.

THE CHALLENGE

Orca Security engaged Upgrow to help manage their Google Ads and LinkedIn Ads program to drive qualified leads from target accounts and increase demos efficiently, globally across North America, EMEA and Asia-Pacific Japan.

THE SOLUTION

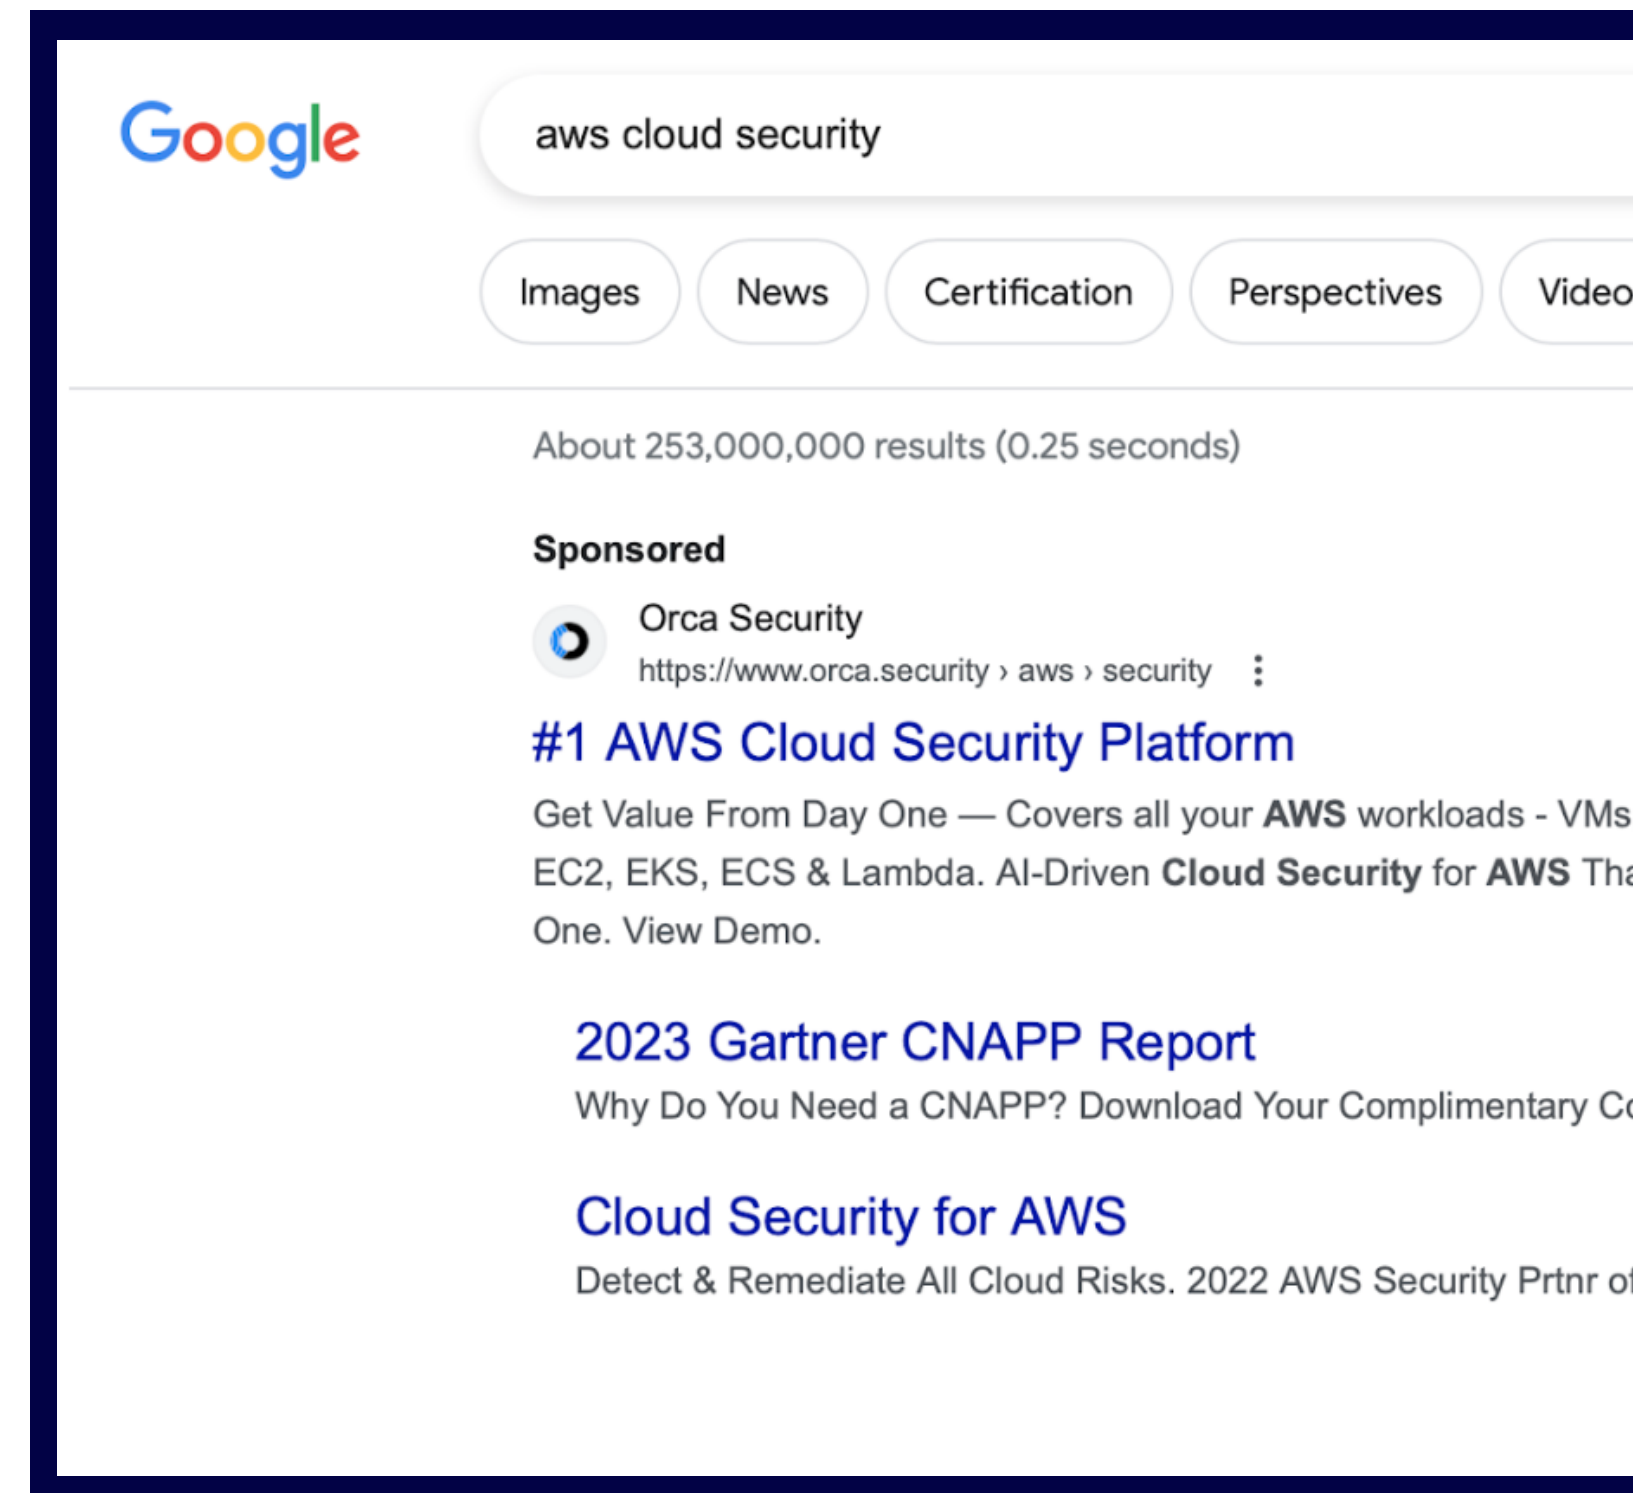

We identified Google Ads as a platform more suitable for driving demo signups based on search intent, whereas for LinkedIn Ads, we focused more on generating top-of-funnel leads with account-based marketing, and driving demos through retargeting.

GOOGLE ADS

We first helped Orca Security analyze their existing campaigns to identify performance opportunities to scale out, as well as opportunities to minimize wasted spend.

Search campaigns were performing the best and where we focused most of our attention towards. Through extensive keyword research, we were able to identify opportunities to expand our list of converting keywords, expand non-branded campaign structures and leverage automated bidding in order to improve our CPC and Cost/Demo efficiencies.

With the sunset of 3rd party cookies on major browsers, we helped Orca Security navigate the tracking landscape of utilizing 1st party data and incorporating enhanced conversion tracking to improve targeting and measurement effectiveness.

GOOGLE ADS RESULTS

Over 4 quarters, Upgrow has managed to increase Orca Security's demo volume by 163% (Q3 is up 130% YoY) while reducing their Cost/Demo by 41%.

-33%

CPC

LINKEDIN ADS

On LinkedIn, we broke out 3 funnels stages of the buyer journey and mapped out how each stage of the buying journey should be targeted:

Top funnel campaigns ran against our target audience in order to build awareness/engagement, as well as a remarketing pool to be used for lower funnel stage targeting.

Middle funnel campaigns promoted asset downloads to help further educate and inform our CISO and cybersecurity practitioner audiences, leveraging single image and document ad formats which performed really well, and lead generation forms.

LINKEDIN ADS

Initially campaigns were targeting job functions, but through in-depth analysis of job titles that made it through to marketing qualified leads (MQLs), we reworked our campaigns to focus on specific job titles (instead of job functions) that previously MQL'd.

Through this approach, we saw a significant increase in lead volume (+306% MoM) and improvement in cost per lead (CPL) efficiency (-76% MoM).

We also aggressively ran remarketing campaigns to further nurture our higher funnel audiences (e.g. video views, engagers, leads), and website visitors in order to drive them to our bottom of funnel demo offer.

The image displays four LinkedIn ad creatives for Orca Security, arranged in a 2x2 grid. Each ad features the Orca Security logo and follower count (46,145 or 45,541). The top-left ad promotes a 'How to CISO: First 91 Days' ebook, featuring a clock graphic with '91 days' and a 'Preview 5 of 41 pages' link. The top-right ad highlights 'Instant Demo. 5-Minute Install. Complete Protection.' for AWS, Azure, GCP, and Kubernetes, with a 'SEE IT IN ACTION' button. The bottom-left ad focuses on 'Instant Demo. 5-Minute Install. Complete Visibility.' and includes a 'VIEW DEMO' button. The bottom-right ad is titled 'Setting up Success in the First 91 Days' and offers a guide, with a 'Get the Guide' button. All ads include a 'Request Demo' button and the website 'orca.security'.

“

Since working with Upgrow, we've seen the quality and quantity of our leads and demos increase substantially and efficiently. They are great partners in helping us drive growth, from strategy to campaign execution across multiple channels, and are experts in the cloud security space which is very competitive. I highly recommend working with Upgrow if you're looking to scale your demand generation program!”
